

MUSICAL memories

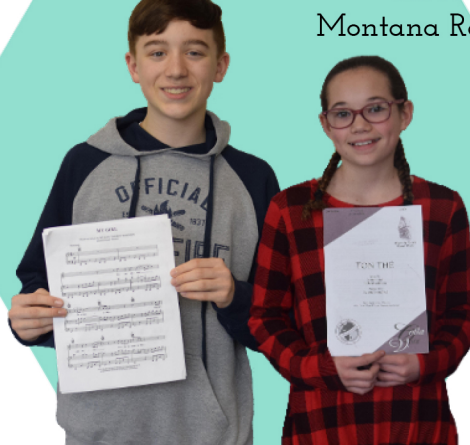

Boys and Girls Choir members express their favorite pieces

"My favorite piece is probably 'My Girl!'"

Otto Spitler (7)

"I like the piece 'Ton Thé!'"

Montana Reed (6)

CREATING FOR COMMUNITIES In the midst of December, Emily Marciszewski (8) goes full force on her project of creating some fun holiday ornaments. Those ornaments would soon be brought to the Senior Center, so the elderly could enjoy Christmas just a little more. Builders Club was a great way for Marciszewski and other students to be involved in community services while developing new skills. Also, students got the opportunity to hang out with their friends, and even make some new ones. "My favorite part of Builders Club is getting to spend time with my friends and taking part in community service projects," Marciszewski said. *photo by Ryan Harper*

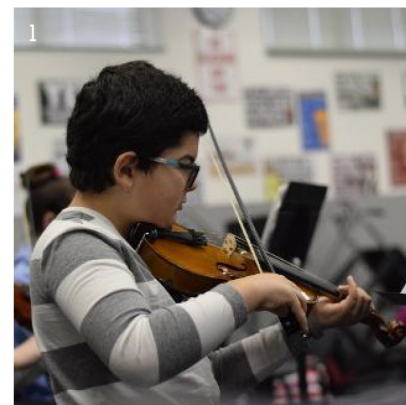

AMUSING ASTONISHMENTS Bringing out the smiles, Nicky Steinert (8), Lizzy Sandru (8), Sarah Yousif (8), and Collin Brophy (8) laugh and discuss an answer to the toss up practice questions on February 25. Quiz Bowl allowed students like Yousif to expand their knowledge on a variety of topics. "I joined Quiz Bowl this year," Yousif said. "I'm glad I did because it helped me further my knowledge on different topics, but still hang out with my friends." *photo by Carmella Gatto*

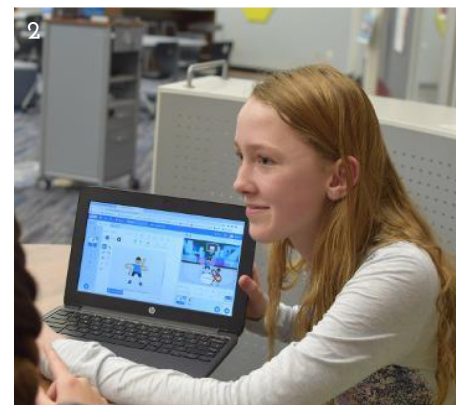

COLLABORATING ON CODING Working as a team, Shinjan Bandyopadhyay (8) and Alex Liu (8) work on an event called Game On on December 5. Game On is an event that requires students to code in different ways. Science Olympiad had many events for students to express different curiosities in engineering and science, as well as make friends while doing it. "It's a good place to find friends and people who do the same thing as you," Bandyopadhyay said. *photo by Neil Sachdeva*

1) **FIDDLING FOR FUN** Concentrating on his music, Gabriel Romero (6) works diligently with the rest of the sixth grade Fiddle Club to get down the piece 'Old Joe Clark.' In Fiddle Club, members extended their musical skills with other people who shared their common interest. "I like Fiddle Club because it gives us an opportunity to play pieces we wouldn't get to play in normal Orchestra," Romero said. *photo by Sarah Yousif*

2) **LEARNING NEW SKILLS** Cracking the code, Taylor Dahms (6) works with her partner during a Girls Who Code Club meeting in the Hot Spot on February 24. Dahms loved how the club gave her the opportunity to bond with friends, and learn more about coding. "I would recommend this club to others because I've learned so much, it's really fun and you can bond with other people," Dahms said. *photo by Suhani Dalela*

CONNECTING clubs

Students share why they love their clubs
content/design by Karli Dorr and Sarah Yousif

"I like Jazz Band because everyone in it has an appreciation for jazz music, and I can share my love of jazz with people."
Fiona Crawford (8)

"I like Student Council because it lets me be more involved with the staff members and improve the school."
Leah DeCaro (8)
